

differences of opinion in the areas of professional expertise in this licensing. Due to the carryover, however, we run the very real risk of not even having those people license and recognize those health care professionals. This bill has a single purpose and that is to separate the conflicts from the continuation of the Bureau of Examining Boards. I would call your attention to the proponent testimony and I believe you will see that just about each and every one of the areas involved have agreed that the continuation of the board should be of prime importance and that this bill should be expedited and passed with 30 votes. SPEAKER NICHOL: Senator Warner.

SENATOR WARNER: Mr. President and members of the Legislature, I rise to support the bill but also indicate that we will offer an amendment on Select File. I had agreed in conversation with Senator Fenger and others that it would be prudent to extend the sunset on those agencies that were scheduled to be terminated July 1 of '83 one more year in order that those bills would not need to come up during this session when we have got a great many problems and they were things that could be worked on by the Public Health Committee during the interim and be taken up immediately in January of the '84 session. I think the intent was for one year extension and that is a good idea and a reasonable one and we will offer an amendment on Select File to do that and only that. I don't think we want to extend them for four years.
